SOFTWARE ENGINEERING
IOWA STATE UNIVERSITY
UNDERGRADUATE STUDENT PETITION

General Statement. The ISU Catalog, issued every year, prescribes the requirements for a baccalaureate degree in Software Engineering. A student may request a substitution or waiver for some of the requirements. Petitions must be typed and submitted to the petition committee through your academic adviser. Please provide detailed and complete information to support your request.

A petition is, by definition, an individual request and is not precedent setting. Both the action requested and the reasons, therefore, are considered when decisions are made.

1. Name: _____   2. Submit Date: _____

3. Projected Graduation Date: _____   4. Catalog: _____

5. Adviser Forwarding Petition
